**Week 10 Tutorial**

**Preparation**
Before this tutorial you are expected to have read Topic 2 Chapter 3 of the book (pages 293-321).

**Aim**
The aim of this tutorial is to further develop your understanding of how operating systems work.

**Questions**
- Questions 1-4 on page 313 (Topic 2, Chapter 3)
- Questions 1, 2, 3 on page 316 (Topic 2, Chapter 3)

**Outcome**
Fill in the tutorial summary sheet as best you can, including the group’s assessment of how well each person has worked in the group.

**Reflection**
Sometimes users want to do things that aren’t good for them. How far should an operating system go to try to protect a user from themselves?
Tutorial 10 Summary Sheet

Summary of outcomes:

Questions solved:

Questions attempted but unfinished:

Questions not attempted:

Points to raise with tutor or lecturer:

Peer and self assessment: (see the final tutorial for mark guidelines)
